## **INTRODUCING DOUBLE STANDARDS IS DANGEROUS AND CLEAR BREACH OF THE LAW**

Centre for Civic Education (CCE), as one of 501 NGOs, which have supported appointment of Goran Djurovic for the member of the RTCG Council, is harshly condemning arbitrary statements that definitely seem inadequate for the President of the Parliament.

Linking Djurovic and CRNVO with any political party represents an ugly attempt to mark everything different as a direct party opponent.

Since Krivokapic is „ready to believe based on obvious facts“ CCE has yesterday addressed a letter to the President of the Parliament containing the following questions:

- Which and whose Law did you respect when you upheld the appointment of Žarko Mirković for the member of RTCG Council, what is directly opposing the Article 23 of the Law on public broadcasting services RTCG ?

The facts prove that that Government appointed Mirkovic for the position of acting Director of the Public institution „Music centre“ from 13 April 2006, and his membership in the Council of RTCG has been confirmed by the Parliament on 10 May 2006.

- Which Law did you respect when you included in the agenda appointment of Radmila Vojvodic without her written consent, thereat bringing her and her nominators in unpleasant situation?
- Which and whose spirit of the Law did you respect when you upheld the appointment of Branislav Calic for the member of RTCG Council?

Already on 7 September from daily „Vijesti“ and reactions of NGO sector you could have learned that Calic was in the first lines on the rally of the ruling coalition, you personally belong to, and through frantic applauding and admiring looks he clearly expressed his party colour.

- How, since you regard yourself as a father of NGO sector, you do not respect the appeals of female nongovernmental organisations which gained unprecedented support of the rest of NGO sector for the initiative to start the procedure for dismissal of the President of Gender Equality Parliamentary Board, since her chairing this body is only an obstacle for development of cooperation between the Parliament and NGO sector.

Where is a moral obligation that is leading you in this case?

In the anticipation to receive a factual answers on precisely formulated questions, supported by facts, we would like to point out to Montenegrin public that Mr. Krivokapic

is seriously endangering the dignity of the Parliament of the Republic of Montenegro by his statements and continuous introduction of double standards and breaches of the law and that he shows more agility in repressing true initiatives of NGO sector than in implementation of Social Democrats' politics in Montenegro.
