Podgorica, 17 October 2007

## **PARTY PROPAGANDA STILL IN PUBLIC INSTITUTIONS**

Centre for Civic Education (CCE) informs the public and the Minister of Health, Labour and Social Security of the Government of Montenegro that several citizens of Danilovgrad reported seeing a large framed portrait of the President of Democratic Party of Socialists (DPS) in their health centre.

Photographs of the same party leader also adorn the Clinical Centre, i.e. its Department of Pathology, particularly the room where the patients are invited to collect their examination results.

CCE urges the Council of the Radio Bijelo Polje to verify whether the portrait of the DPS party leader also exists in their offices, and reminds the Police Directorate to remove party propaganda and the photographs of DPS leader as soon as possible from all offices of its local branch in Bijelo Polje.

CCE urges again the Government to guarantee the citizens of Montenegro de-politicised and unbiased public services, both in police, public administration, social security, and health.
