AGAINST CORRUPTION

MCMD

Monitor's Center for Media and Democracy (MCMD) Museum of Montenegrin Privatization - case studies from four municipalities (Nikšić, Cetinje, Herceg Novi, Berane)

Overall objective of the project is to contribute to increase of accountability and transparency of state institutions in the sphere of privatization of social and state property in Montenegro.

Specific objective of the project is to improve monitoring of transparency and effects of the privatization processes through investigative articles about the privatization processes in the municipalities of Cetinje, Nikšić, Herceg Novi and Berane.

Estimated results are:

1. Investigated and published cases of privatization in the municipalities of Cetinje, Nikšić, Berane and Herceg Novi, with focus on possible elements of corruption;
2. Increased accountability and transparency of state institutions responsible for conducting privatization process;
3. Raised awareness and participation of citizens in supervision of privatization, through media and internet campaigns.

Target groups are local and state administration, journalists, financial experts, judicial authorities, international and local organizations, media, and citizens of Nikšić, Cetinje, Berane and Herceg Novi. *Final beneficiaries* are all citizens of Montenegro.

Main activities include: assessment of the legal and financial framework regulating the privatization sector, along with case studies of privatization at the local level in Berane, Herceg Novi, Nikšić and Cetinje; research on earlier privatizations, with an emphasis on key ones in four Montenegrin municipalities and possible related elements of corruption; production and publication of articles on the basis of conducted research and in accordance with the Code of Ethics of Journalists and Professional Standards; analysis of the work and transparency of the competent authorities in the field of privatization, with focus on capital privatization in the four Montenegrin municipalities; presentation of the results of analyzes in publication; organization of panel discussion to present the results of analyzes and other project outputs, including the final publication; conduct of continuous raising awareness campaign on privatizations at the local level via media; conduct of motivational campaign to involve citizens more closely in the privatization control via social networks.

The project will be implemented for a period of six months, starting from 15/01/2019. The project is supported with EUR 9,948.10.

Dr Martin Schneider-Jacoby Association

Journey through generation – Ulcinj Salina: save the local!

Overall objective of the project is to contribute to the involvement of citizens in the fight against corruption at the local level in Montenegro.

Specific objective of the project is to motivate citizens to actively participate in decision-making processes at the local level through raising awareness and promoting the value of Salina Ulcinj.

Estimated results are:

1. Raising awareness of the local community with focus on “younger generations” for critical thinking and more active participation in decision-making processes in order to timely prevent corruption cases in the future;
2. Production of new content and getting to know the local, but also the wider community, about the importance of Salina for the development of Ulcinj and biodiversity, as well as the consequences of its inadequate treatment.

Target groups are citizens of Ulcinj, especially young people from Ulcinj, including elementary school students, high school students and university students.

Main activities include: recording interviews and shooting other material for documentary; production of documentary film - “A journey through generation -Ulcinj Salina”; translation and subtitling of documentary (Albanian, Montenegrin, English, German); media announcement of documentary film; premiere of the documentary followed by Q&A with the film crew; panel discussion on Salina Ulcinj case.

The project will be implemented for a period of six months, starting from 15/01/2019. The project is supported with EUR 9.355,03.

NGO For rural life

Healthy approach – Healthy products!

Overall objective of the project is to contribute to the reduction of corruption at the local level.

Specific objective of the project is to motivate citizens to actively engage in fight against corruption at the local level.
